

Course overview

CERTIFIED KPI PROFESSIONAL

KPI selection and data gathering are considered by professionals all around the world to be the most challenging aspects in working with KPIs. A way to address these challenges is to build a sound framework to measure KPIs, starting from the moment they are selected, until results are collected and centralized in performance reports. This training course presents a rigorous KPI Measurement Framework that embeds 10 years of research in the field of key performance indicators and relies on best practices identified in the business environment.

- **Participants' profile**

- **Professionals interested in measuring performance**

Professionals from different fields, such as finance, human resources, production, logistics, information technology and others, interested in key performance indicators, will acquire the competencies needed to measure the performance of their team, department or organization.

- **Top/middle/lower management professionals**

Executives or operational managers, regardless of their field of expertise, will gain the ability and knowledge to measure performance and maximize the value of using KPIs. The tools and resources offered as part of the Certified KPI Professional Training Course enable managers to apply the concepts learned within their organizations immediately after the course.

- **Performance measurement experts**

For professionals like Data Analysts, Strategy Managers, Performance Management Officer or Performance Architects, it is important to develop competencies in measuring performance, especially in terms of KPI selection and data gathering. Usually, this particular audience already has a performance measurement system set in place. and the The course offers them the opportunity to learn the best practices used in this field and identify how their current processes and approaches regarding KPIs can be improved.
